

152mm 10–14 TPI (Wood) Bi-Metal Recip Blade (5 Pack)

DT2348–QZ

TOUGH COAT – Specially formulated anti-stick coating minimizes friction and gum-up for smoother cuts.

BI-METAL CONSTRUCTION – A combination of HCS bodies (Provides Flex) and cobalt-alloyed HSS-cutting edge (Provides Life)

SPEED – Aggressive tooth geometry with a special new angle for a fast and effective removal of material, especially for tensile and abrasive metals

EXTREME APPLICATIONS – Ideal for demolition work

Breakaway Feature
