

## **Product Overview:**

### **Ariel A-10807 Battery Data Sheet**

**Product Name:** Ariel A-10807 Replaceable Battery

**Voltage:** 3.6 VDC

**Application:** Used in Digital No-Flow Timers (DNFT) for force feed lubrication systems.

## **Specifications:**

- **Type:** Lithium battery
- **Capacity:** 2.4 Ah
- **Dimensions:** 14.5 mm (diameter) x 50.5 mm (length)
- **Weight:** 19 grams

## **Safety Information:**

- **Handling:** Avoid short-circuiting the battery. Do not expose to high temperatures or open flames.
- **Storage:** Store in a cool, dry place away from direct sunlight.
- **Disposal:** Follow local regulations for battery disposal.
