

DESCRIPTION:

Powered by a lithium-ion battery - the same technology used to power cell phones and laptop computers. The new DYMO LabelManager 360D label maker eliminates the inconvenience of AA batteries, simply charge and go giving you labelling power wherever and whenever you need it.

APPLICATIONS:

Ideal for wire and cable, terminal blocks, electrical and patch panels.

FEATURES:

- Large screen displays two lines of label text
- Graphical display lets you see text effects on screen before you print. This means no more guessing what the label will look like. What you see is what you get!
- Work faster with an improved user interface that displays all menu items without scrolling, and includes intuitive icons for formatting options
- Customise labels and add emphasis by choosing from three font styles, 7 font sizes, one of the many text styles, and one of 8 different box styles or underline
- Uses DYMO D1 labels in 6, 9, 12 and 19mm widths
- 9-label memory and "save text" feature
- Print up to 10 copies of the same label
- Familiar QWERTY keyboard speeds text entry
- Quick access to special symbols including punctuation, diacriticals and currency

PRINTER SPECIFICATION:
